BRANDENBURG'S TRIAL ON FORGERY CHARGE

Defendant Showed Little Concern in Evidence Introduced for Forging Cleveland's Signature.

NEW YORK, June 18.—Broughton Brandenburg showed little concern yesterday as the State, in a business-like way, continued its attempts to prove that the article sold The New York Times for \$500 as Grover Cleveland's and widely published over the country, was a forgery, and that Brandenburg knew it when he sold the article.

Late in the afternoon the State began to introduce witnesses in rapid succession, first to identify the typewriter

on which the article is said to have been written and the stenographer to whom it was delivered; then the typewritten sheets of the article itself and their correspondence with the published text. By this testimony the prosecution hopes to prove that the article was dictated in part from notes and in part written in long hand by Brandenburg, and passed over by him to the stenographer to transcribe, on August 10, 1908, more than a month after Grover Cleveland had died.

One Hundred Thousand Dollar Fire at Key West

KEY WEST, June 18.—A fire which started at 4:30 o'clock Wednesday morning destroyed property to the value of nearly \$100,000.

El Polaco restaurant, Charles S. Johnson's drug store, the New York Dye Works, Victoria restaurant, P. Weinberg's jewelry store, were all completely destroyed.

The insurance will represent about 20 per cent of the loss.

Other buildings affected and damaged to a greater or less extent are: Hotel Jefferson, the Elks Club, Cripe House, and H. Rahner's bookstore.

The fire department had a hard fight to keep the flames from spreading over a greater area. It happened that the breeze was not very strong. As most of the buildings on the island are frame structures there would

have been a much greater loss had the wind been high. It was by only the hardest kind of work that the firemen subdued what was the greatest fire Key West has had in years.

Just after the fire alarm was given, the horses drawing Engine No. 3 ran away, they getting out of the fire house before the driver could climb to his seat. They ran the engine into Chief Fulford's buggy, throwing Arthur Fulford, his son, out, and injuring him about the head. The horses continued on with the apparatus down Duval street. There is no sea wall at the foot of Duval street, and the maddened animals plunged into the Gulf, which is shallow at this point. One of the horses fell, breaking his leg. This stopped the others, which were unhurt.

WALDO NOTES.

WALDO, June 18.—Occasional showers have refreshed vegetation but not thoroughly saturated the ground yet. Crops are fine.

Dr. Coffee is in charge of the Turner store to close it out by sales at reduced prices.

A delightful afternoon was furnished by the young ladies of the Methodist church at the bank building. The front room was fitted up with tables, chairs, a piano, ferns and flowers, and a number of songs and instrumental pieces were given as refreshments were served. It looked real city like with a crowd enjoying themselves. The proceeds were for the church.

Mrs. Weeks continues very ill at the home of her son, Orlando Weeks. Mrs. Horace Ross is still having fever, which has clung to her several weeks.

A so-called minister has performed the marriage ceremony, and it is said that he is not legally authorized to

do so. It would be fair when he propounded the question whether "either of you know any impediment why you may not be lawfully joined together," to retort with the question whether he knows any impediment why he could not legally join them together. Marriage is too solemn and important to have any uncertainty about its legality.

Among those who went on the excursion to Fernandina were D. Hicks, Arthur Stevens, Frank Jolly and boys, Messrs. Kite and D. L. Branning. There was no misdemeanor going or coming in the car in which they rode. It had been over fifty years since Mr. Branning had been to Fernandina, the last time being when he was a boy on the way to school in South Carolina some years before the war.

The Tampa Tribune gave an account of a woman who registered at a hotel there as from Waldo, and had called in a physician and disappeared next morning, leaving the evidence of

DINNER GIVEN TO SAMUEL GOMPERS

**SAILS FOR EUROPE SATURDAY
AS LABOR ENVOY.**

**In Speech He Comments on the
Injustice of the Recent Im-
prisonment Sentence.**

NEW YORK, June 18.—Samuel Gompers, who sails on Saturday to Europe as an envoy to labor organizations there, and as a student of conditions affecting immigration to this country and foreign competition with home industries, reiterated last night at the "Bon Voyage" dinner given by the executive council of the American Federation of Labor, his determination to uphold his constitutional rights in defiance, if need be, of court injunctions.

Mr. Gompers was unexpectedly presented by the federation earlier in the evening with a purse of money.

Mr. Gompers said:

"I have followed the Biblical precept that if they smite the right cheek, hold out to them the left, but if there is no more cheek remaining to be smitten you have to fight. When it comes to me as a choice of maintaining my rights as handed down to me by the constitution, and disobeying an injunction which denies me those rights, I shall not hesitate."

an abortion. No person of such name as that given is to be found in this vicinity, and no clue exists as to her being from here, and evidently the name and place were fictitious.

Contractor Boothby is progressing finely with the repairs on the former Renault House, but is hindered by the delays waiting for the delivery of material.

Mrs. C. B. Peeler and son are visiting her parents, Rev. and Mrs. D. L. Branning.

Patrons of the public school are gratified that Prof. Bryant will be the principal another scholastic year, and that Miss Effie Pettit will be assistant principal. Miss Pettit recently graduated with first honor at the State College for Women at Tallahassee. Her father, N. C. Pettit, is here from Tampa and may remain permanently at their home here.

SECOND DAY'S MEETING.

**Large Congregations Now Present at
Session of Conference.**

The colored Conference of the Jacksonville district has entered upon the second day of its work with renewed interest and many more delegates are now in attendance.

The delegates have applied themselves to business, with the result that they are making rapid progress of the work before them, and deep interest is being taken in all of the proceedings.

Sunday will be one of the most important days in the history of the Conference, and special arrangements are being made to accommodate the large crowd that will be present on this occasion. The funeral service of Dr. Joseph Sexton will be preached by Rev. L. H. Hawkins.

HAS PURCHASED HOME.

**M. S. Cheves Buys the Torbett Prop-
erty on Arlington Street.**

M. S. Cheves, the accommodating deputy clerk, has purchased the old Torbett property, located on West Arlington street, and will make this place his home in the future.

He has let the contract for having the building repaired and all modern improvements added, after which he will move his family there.

The place is well located, close to the new Government building, and within a very short while will prove valuable property.

THAW'S HEARING WILL OCCUR EARLY IN JULY

**Case Continued in Order to Accommodate District
Attorney Jerome---To Remain in Prison.**

WHITE PLAINS, N. Y., June 18.—Harry K. Thaw will have to wait in the Matteawan asylum until July 6, for a hearing to determine whether he is now sane and in a condition to be released from the asylum. The case came up before Justice Mills here yesterday on a writ of habeas corpus, obtained by Thaw. Thaw's counsel, Charles Morschauser, wanted to go on with the hearing but Mr. Clark, a representative of the attorney general, wanted to have the case transferred to New York county and District Attorney Jerome of New York asked that the hearing be postponed in order to give him an opportunity to attend to other business. Justice Mills decided that the hear-

ing would be held in White Plains.

Justice Mills ordered Dr. Baker, of the asylum to permit Thaw to stay up until 9 o'clock at night on the representation of Thaw's counsel that he was compelled to go to bed at 8 p. m. and that this was too early.

Thaw's mother, Mrs. William Thaw, his sister, formerly the Countess of Yarmouth, and his two brothers were in the court room. When the justice announced his decision to delay the hearing, Harry's mother collapsed. Harry Thaw assisted her to retire to an ante-room and remained there with her for a short time.

Isn't there something which only a want ad. can do for you today?

All Traffic Was Blocked By East Side Residents

NEW YORK, June 18.—One of those waves of hysteria, which from time to time sweep the crowded tenements of the East Side, temporarily closed three public schools with an attendance of more than 4,000 pupils yesterday, blocked all traffic on Grand street for more than an hour, and was not quieted until the police reserves were called out. Beyond the fact that many Jewish parents have of late been receiving letters demanding \$1 for each family on pain of having their children murdered there is no explanation.

First a gust of wind carried the uneasy tattoo of a fire engine on the gallop to the pent up children of a school that housed 2,300 pupils; the

engine whistled shrilly, a little girl shrieked in answer, and in a minute the hallways were filled with a mob of shrieking, fighting boys and girls and panic-stricken mothers from near by tenements were climbing and kicking at the outside of the street doors. As if by prearrangement, another passing engine chafed the nerves of another set of children in a second school. The rumor spread through the excited surging streets that the school was on fire. Before the crowds could get to it, there was a shout that a third school had been blown up by the Black Hand. Then there was no holding the people. Parents fought with the police for their children, and many were torn and bruised in the scuffle.

ROCHELLE NOTES.

ROCHELLE, June 18.—Rain is much needed here now. The crops are looking very bad for want of rain.

Mr. and Mrs. Lee Jennings and little daughter departed Monday for Alabama, where they will visit the latter's mother. They were accompanied by Miss Velma Jennings.

Miss Maude Coulter left Thursday for Interlachen, where she goes to visit her sister, Mrs. Walter Joyner.

Miss Lula Perry and brother returned from Dade City Sunday, where they have been attending school for the past month.

Ollie Gillespie is stopping over here a few days before going home.

We are glad to welcome Arch Zetrouer and wife back to Rochelle.

They have been living at Boardman, where Mr. Zetrouer was section foreman.

Henry Jones left a few days ago for Brooksville, where he goes to work with his father.

Misses Nannie and Irene Jones and Della Mae Shealy left Friday for Reddick and Ocala to visit relatives.

Revs. Rape and Folsom have just closed a series of meetings at the Methodist church.

We are glad to note that Mrs. C. E. Tillman is able to be up again after being confined to her bed with fever.

Big Reward Is Offered For a Negro Murderer

STARKE, June 18.—Yesterday morning the funeral of Mr. Cribb, the victim of the negro Swaggard, occurred, and was indeed a solemn event. Cut off in his manhood without a woman's notice, and the wounded man at his home suffering from an attempt to do his duty, all on account of a worthless negro.

Sheriff Langford is offering a reward of \$100 for the capture of the

negro Swaggard, and it is expected that the Governor will add largely to that amount. It now appears that the murderer is more of a desperado than demented. He is about 5 feet 8 or 10 inches high, weighs 150 pounds, is dark ginger cake, and very bushy hair. Wears No. 8 shoe.

The feeling here is more intense than for years. No one will be contented until he is captured.

A Serious Pistol Duel At Mill Commissary

LANELED, June 18.—A duel took place at noon yesterday at Carters, a small station near here, between A. J. Jones, superintendent of the Carter Manufacturing Co's mills, and Clyde Carter, a sawyer. Carter is in a dying condition, one shot passing through his head and another through his body. Jones is seriously wounded but may recover, a ball having struck him in the collar bone, passing through his neck.

The superintendent had been attempting to break up gambling about the mills and Carter resented his interference. The men met in the commissary yesterday and both began firing at once. A companion of Carter's, Fred Jones, is in jail charged with firing the shot that struck Jones.

Carter is a member of a prominent Georgia family, his father having been a candidate for Governor of that State.

CONDUCTOR EMANUEL KILLED ON SEABOARD

TRAIN OF TEN CARS PASSED
OVER HIS BODY.

Was on Rear End of Train Which
Was Backing Up, When a
Sudden Jar Threw Him Off.

Conductor Emanuel, a young man running one of the vegetable extras on the Seaboard, was accidentally killed early Friday morning near Ocala while in the discharge of his duty.

From what could be learned of the accident the conductor was stationed on the rear end of the train as it was backing into the station, when suddenly a lunge of the cars was made and the young man thrown to the ground, the entire train passing over his form, and it is supposed that he was killed almost instantly by the first blow of the cars.

In all ten cars and the engine passed over the body, breaking all of the bones and badly mangling the form into an almost unrecognizable shape. It was fully thirty minutes or more before he was missed and picked up by the remainder of the crew of the train.

Conductor Emanuel was a young man about 25 years of age, and had on a number of occasions run special trains through this city, particularly since the heavy vegetable rush has been on.

He has been making his home at Waldo for the past few months and has a large number of friends who deeply regret his death.

TWO MORE MINES CLOSE.

Central Phosphate Close Operations
on Account of Price.

Two more of the phosphate mines in the mining section of Western Alachua have been closed down on account of the low prices now being obtained for the rock in the markets.

The Central Phosphate Company, one of the larger companies operating in that section, have decided upon this move after operating during the fall season for the past year or more.

This leaves only a very few others of the mines now being run, such as Dutton, Cummer, Williams and a very few others of the independent companies.

WILL BUILD NEW SILO.

Davis & Oliver Have Contract to
Erect One of Concrete.

Davis & Oliver have just closed the contract for the erection of a new concrete silo which will be built for the Diamond Ice Company, and they have let the job to W. A. McNally.

Within the past few years this new method of curing and saving crops for this section has become more and more in vogue, until now nearly all of the larger concerns are having them put in their barn yards.

Now Moving Machinery.

All of the old machinery in the burned laundry building is being removed to the vacant lot adjoining the new site of the laundry building, near the G. & G. railway tracks. There is very little if any of the material that can be used, but Mr. Weaver can hold it until some dealer in scrap iron calls in this direction to buy up the same.

The building has been condemned by the City Council and the owner will now be required to remove it from the lot at an early date.

Off for the Camp.

Deputy Sheriff Brunson left Friday with Jim Wilson and Irene Bowen, two negroes convicted here and sent to the camps for various charges. Wilson goes up on two charges and will have twelve months, while the woman has six to serve for larceny of money.

Card of Thanks.

I desire to thank the Gainesville Fire Department for the efficient work they did in partially saving my property from the fire loss on Thursday morning. They deserve all praise for their heroic efforts under adverse circumstances. Respectfully,
J. B. DAVIS.

INVESTIGATION OF MEAT INSPECTION

SECRETARY WILSON APPOINTS
PROBING BOARD.

National Stock Yards at East St.
Louis Will Be Thoroughly
Investigated.

EAST ST. LOUIS, Ill., June 18.—An official investigation of the charges against the meat inspection system at the National Stock Yards here was begun today by a board selected by Secretary Wilson of the agricultural department, headed by Dr. A. D. Melvin, chief of the animal industrial bureau. The sessions were held behind closed doors.

J. H. Harms, the former inspector, who brought the charges that caused the investigation, withdrew from the case when he was informed that the hearings would be held behind closed doors.

A statement issued by the officials said:

"Mr. Harms was assured that he would be afforded every opportunity to present evidence to substantiate his charges. He was told that it was the general policy of the department not to conduct public investigations, but that he would be furnished each morning with a copy of the stenographer's work of the day's proceedings. The committee will continue its investigation. It is in possession of a list of the witnesses relied upon by Mr. Harms to substantiate his charges. This list was furnished to the department by Mr. Harms, and every man on it will be called before the board."

LARGE CROWD ATTENDED.

First Day of Big Sale at Hyde's Was
Most Successful.

The big department store of the G. W. Hyde Hyde Company was crowded to the doors throughout Friday with a great throng of people who had come to be present upon the opening day of the Ten Days' Mill and Factory Syndicate Sale.

The goods in each department were plainly marked, were displayed in a manner which made selections easy, and the array of clerks were kept busy the entire day in supplying the wants of those who had been attracted by the announcement of money-saving values to be offered during this event.

Poor Milk

Is often thought to be responsible for an infant's loss in weight or general poor health. The cause usually is that the child has worms. They get the nourishment of the food and the baby starves, actually starves. White's Cream Vermifuge expels the worms and nourishes the child, sure and safe. Price 25 cents. Sold by W. M. Johnson.

Impossible to be Well

It is impossible to be well, simply impossible, if the bowels are constipated. Waste products, poisonous substances, must be removed from the body at least once each day, or there will be trouble. TO START WORK HERE.

President King Will Also Arrive in
City by Sunday to Start the
Structural Work.

Work will be resumed on the Government building next Monday, Jesse Mills, the new superintendent, having arrived here Friday for this purpose.

He stated to the reporter that work would commence on the structure not later than Monday with a full force of hands and that they would be kept busy from now until the completion of the work, provided that no delay was experienced in waiting for material.

W. W. King, president of the King Lumber Company, who are the successful bidders, will be with the building from time to time until it has assumed the proportions that it will not require so much of his time. He is expected to arrive in the city Sunday to assist Mr. Mills in getting started off, when he will visit other places.

With other building mentioned in operation and the Government building employing a large force of experienced and skilled labor, it will make glorious times for the business men of this city for the next year at least.

Jim Daniels Allowed to Compromise
His Case by Paying Costs

There was another busy session of the Mayor's Court Friday afternoon at 3 o'clock, it being one of the largest sessions held by Mayor Davis for the past several weeks. Besides the number of women before him charged with running disorderly houses, he had a number of minor cases, but this being the first offense of the kind for the women, he let them off with a reprimand and suggested that they seek other quarters.

Jake Moore, for fighting, was fined \$2 and costs, while Lonnie Collins, upon the same charge, was discharged.

Jim Daniels, who was arrested on a charge of having stolen a wheel from John Chessier, the bicycle man, was allowed to compromise the case by paying all of the costs and paying for the bicycle.

Nathan Richards, a young negro boy, had stolen a box of shoe polish from Royal Cook. He was fined \$5 and costs, but the fine was remitted provided his mother would administer severe punishment.

The case of D. G. Edwards, charged with keeping over a certain amount of combustible material within the fire limits, was continued until next Monday.

FELL FROM SECOND STORY UNINJURED

LITTLE MARTHA HARROLD BE-
COMES UNBALANCED.

Missed Old Box Filled With Cans
and Glass Bottles, Also Hoe
Laying on the Ground.

Little Martha Harrold, the 3-year-old child of J. G. Harrold, the south side merchant, had a narrow escape from death Friday morning by falling from the second-story window of her parents' home on E. Masonic street.

The child, with others, was playing in a bed up stairs and in some manner rolled too near the open window and on out of the window, falling to the ground, a distance of thirty feet, without the slightest injury so far as noted.

Following the accident a physician was summoned and made a careful examination, but found that she was uninjured, and aside from the great right necessarily caused to the parents, the little one was all right.

A very remarkable occurrence was the fact that a box filled with old tin cans and glass bottles was laying at the side of where she fell, while a hoe was turned up on the other side. A few feet to one side in either direction would have probably proved fatal.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies. We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated. These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating. Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country. This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

Palatka now has a free mail delivery. The Sun congratulates the Gem City upon this unmistakable evidence of increasing prosperity.

The seashore and mountain resorts are delighted to hear that American-bound steamships from Europe have extensive passenger lists of people with money.

That the Atchison is a "gilt-edged" railroad is emphasized by the fact that ballast taken from the Belen cut-off assays from \$15 to \$20 a ton in gold and silver.

More manufacturing enterprises are needed in Gainesville. The new Board of Trade can accomplish much towards securing these desirable enterprises if the proper effort is made.

Hon. Frank Adams will be president of the new Fourth National Bank of Jacksonville, which will soon open for business. It will be one of the strongest financial institutions in the State.

Observations made from car windows in various sections of the State indicate that the largest corn crop in the history of the State will be produced this year. The cotton crop also appears to be doing well.

Governor Gilchrist has accepted an invitation from the Tammany Society of New York to deliver an address on the 5th of July on the occasion of the 133rd celebration by the society of American independence.

The establishment of the Merchants & Miners' line of steamships between Jacksonville and Baltimore begins a new era in transportation facilities for the Florida metropolis. Jacksonville has made phenomenal progress during the past ten years, but its growth during the next ten years will be even greater than it has been in the past.

One of the good laws enacted by the last Legislature was that prohibiting the drinking of intoxicating liquors on railroad trains, platforms and depots. The law has received the sanction of the Governor and is now in full force. Now women and children can take a ride on our trains without danger of being subject to the ravings of drunken men.—Madison Enterprise.

Hon. N. P. Bryan was presented with a loving cup on the occasion of his retirement from the Board of Control of the higher educational institutions of Florida. Mr. Bryan has been chairman of the board during the past four years, and his retirement will be a distinct loss to that body. His whole heart has been in the work, and his services have been of incalculable benefit to the educational interests of Florida.

The nominees of the white primary for city officers of St. Augustine were all elected last Wednesday, notwithstanding that a determined effort was put forth to defeat them. Mayor Eugene Masters was re-elected over E. E. Boyce by a majority of 124 votes, and the white people of the Ancient City are well pleased with the result. This method of nominating city officials should be inaugurated in Gainesville next year.

TRoubles of His Own.

Col. Frank Harris, the able editor of The Ocala Daily Banner and nestor of the Florida press, was certainly "up against it" last Monday. He relates the condition of affairs in The Banner office at that time as follows: "It has been said that 'it never rains but it pours.' This saying had a fitting illustration last Monday morning." Our son, Frank Harris, Jr., had quitted his post and gone to Sanford with the Ocala baseball team, to be gone for a week, perhaps longer. Our daughter, Mrs. C. H. Lloyd, our local and society editor, whom we think performs her services so admirably, left for a week's stay at the mines at Newberry. Our Mergenthaler Linotype machinist was suddenly seized with erysipelas of the foot and could not walk. Our pressman had injured his big toe and was under the care of a doctor, and our little "devil" was in bed, the result of eating too heartily of a luscious watermelon.

"That was the outlook. Our esteemed contemporary, The Star, kindly let us have the use of one of its operators for a few hours, and some time in the afternoon our own machinist came down in a carriage, let the consequence be what it may.

"Things began to brighten up amazingly, for there is no telling what is in a person until the occasion arises to bring it out. The paper was all up. Of course the matter was not up to the standard, but the pages were all full, outside selections, the editorial page and the local and society columns, and we were poring over the last proof, entirely satisfied with the day's performance, when there came a terrible flash of lightning, and there quickly followed total darkness.

"The motor had stopped and the lights were out!

"There was a suppressed feeling and a great deal of quiet thinking, but the fates seemed to be with us, for in a little while the office became as suddenly illuminated, the motor resumed its humming and the keyboard its clicking, and there was happiness in the office once more."

The only way the saloons of this State can expect to defeat the constitutional amendment which proposes to wipe out the liquor business, is to so conduct their places that the average citizen who does not go in them will be compelled to admit that they are not a nuisance to him. Therefore, the saloon man who disregards the feeling of the people who live in the vicinity of his saloon is the best advocate the anti-saloon league can find. The dance hall recently established in connection with a saloon in this city is making dry votes faster than any religious body in the community. Keep it going, and Monroe county will land in the dry column by a large majority.—Key West Citizen.

Ex-Governor Broward is president of a newly-formed life insurance corporation to be known as the "Our Home Life Insurance Company" with headquarters in Jacksonville. The capital stock of the company is \$200,000 and the par value of the stock is ten dollars per share. It looks like our anti-corporation friends and leaders are undergoing a change of heart.—Madison Enterprise.

Two \$50 gold pieces, struck off by the Philadelphia mint in 1877, have just been sold for \$10,000 each. If this sort of thing continues United States currency will be quoted in the same list with stocks and bonds.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75 cents. Take Hall's Family Pills for constipation.

The Pensacola Journal correctly sizes up the situation as follows, which is as applicable to any town in Florida as it is to the Deep Water City: "Like the rest of the business world, Pensacola must go out after results. The time is long past when it paid to wait for things to turn up, even if the waiting be accompanied by fasting and prayer. No need for ravens to do the feeding these twentieth century days when the wood is full of bread and meat which may be had by the exercise of a little energy."

The Times-Union offers this timely advice: "If your boy expects to celebrate the glorious 4th advise him to go fishing. Better to drown than to be blown up, because when he goes down you may recover him in good shape, but after he has gone up he may return rather dilapidated. The wisest plan is to padlock your boy to the dining table for 24 hours and let others celebrate."

People visiting Savannah during the past few months say that the only change they observe under State-wide prohibition and the former license system, is that there are more places at which liquor is openly sold than there were before prohibition went into effect. The same condition is said to prevail in Columbus and Augusta.

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

G. T. Kelley, a member of Company H of Marianna, was perhaps fatally injured at Chipley on Tuesday afternoon, when he attempted to jump from the train at the latter place. The train was a through one with State troops, which had been in encampment at Jacksonville, and was not to stop at Chipley.

The Florida Railroad Commission has extended authority to the rail lines in Jacksonville to observe Saturday a half-holiday during the period from June 12 to October 1, 1909. The freight houses of the Atlantic Coast Line railway, Florida East Coast railway and the Seaboard Air Line railway, will close for the receiving of freight and the delivery of freight, except perishables, at 1 o'clock Saturday afternoons during this time.

The best record ever made in tarpon fishing at Boca Grande was by Dr. F. M. Kinsom of New York City, and his friends, H. S. Kerner and S. J. Smyth. Out of 163 strikes they caught ninety-three tarpon. Sixty-four of these were caught in eight days. The party fished twenty-four

TORE HIS SKIN OFF IN SHREDS

Itching was intense—Humor Spread from Hands to Body—Work Interrupted and Sleep Often impossible—Disease Resisted Treatment

BUT CUTICURA CURED HIM IN THREE WEEKS

"My trouble commenced about two years ago and consisted at first of an eruption of small pustules on my hands. These spread later to other parts of my body, and the itching at times was intense, so much so that I literally tore the skin off in shreds in seeking relief. The awful itching interfered with my work considerably, and also kept me awake nights. I tried several doctors and used a number of different ointments and lotions but received practically no benefit. Finally I settled down to the use of Cuticura Soap, Cuticura Ointment and Cuticura Resolvent Pills, with the result that in a few days all itching had ceased and in about three weeks' time all traces of my eruption had disappeared. I have had no trouble of this kind since. H. A. Krutskoff, 5714 Wabash Ave., Chicago, Ill., November 18 and 28, 1907."

SKIN HEALTH

Effected by Cuticura Soap, Ointment and Resolvent.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalded head; the facial disfigurement, as in acne and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in tetter, or salt rheum—all demand a remedy of extraordinary virtues to successfully cope with them. That Cuticura Soap, Ointment and Resolvent (liquid or pills) are such stands proven by unquestioned testimonials.

Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin and Cuticura Resolvent (50c.), for the form of Chronic Gouted Pills, 25c. per box of 60, to Purify the Blood. Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

days, and they vote Boca Grande the best place to fish, and all complained of catching so many king fish and mackerel that tarpon fishing was not really good.

Shortly after 2 o'clock Sunday afternoon J. R. Aderhold, a resident of 209 Fielding avenue, attacked his wife in an alleged cruel manner and neighbors, hearing the lady screaming, thought the house was afire. On this account they telephoned fire station No. 3, members of which quickly responded and "put the fire out." Aderhold, who is alleged to have attacked his wife because she defended their little son from him, did not cease his cruelty until the firemen entered the house. He was arrested by Detective Evans and was fined \$25 in municipal court this morning. The Tampa fire department has been put to various uses, but this is the most novel yet recorded.—Tampa Times.

Mr. Z. C. Chambliss, who takes a great interest in farming himself, and is well posted in the general farm conditions of the county, says that they are good; that the truckers generally have made money. He says that even the cantaloupes turned out better than they at one time promised. That on one of his own patches he picked seven carloads after it was thought the entire crop had been gathered. He says the vines even now are continuing to mature the fruit that was once thought gone, and that the last crop is even finer than the first yield. It is all sunshine around Mr. Chambliss. Whenever the blues get you just engage in a conversation with him and they will take wings and fly away.—Ocala Banner.

Men Past Fifty in Danger.

Men past middle life have found comfort and relief in Foley's Kidney Remedy, especially for enlarged prostate gland, which is very common among elderly men. L. E. Morris, Dexter, Ky., writes: "Up to a year ago my father suffered from kidney and bladder trouble and several physicians pronounced it enlargement of the prostate gland and advised an operation. On account of his age we were afraid he could not stand it and I recommended Foley's Kidney Remedy, and the first bottle relieved him, and after taking the second bottle he was no longer troubled with this complaint." J. W. McCollum & Co.

HOTEL CELLS.

The Difference Between Them and Those of the Jails.

The chief difference between the average hotel cell and the average prison cell, viewed from the standpoint of social psychology, is that one is locked on the inside to keep outsiders out, while the other is locked on the outside to keep insiders in. The occupant of the hotel cell is afraid that something will be done to him or that something will be taken from him by some one who ought to be in a prison cell. That is the theory of it.

"Lock your door and leave your valuables at the office," cautions the obliging innkeeper. "If you had valuables you wouldn't be here," observes the witty prison keeper. That is to say, the question of valuables seems to enter largely into the matter.

It would be great to have a civilization which considered valuable only those things which could not be stolen, such as mental and moral equipment, skill and good fellowship. Then we could be a little more sociable. We could talk to each other without buttoning our coats or feeling for our diamond studs every few minutes. Then the man who willingly secluded himself in a stuffy hotel cell could be locked in and made to stay there on the ground that something terrible was the matter with him.—Success Magazine.

African Elephants.

In portions of Africa the natives believe when a herd of elephants is alarmed and runs away the bulls, if necessary, pick up and carry on their tusks the little ones which may not be able to keep up with the herd. These little ones when first born weigh not more than 200 pounds and of course might readily be carried, as stated. ABOUT ADVERTISING—NO. 8

The Cellar Hole and the Sewer Hole

By Herbert Kaufman.

A coal cart stopped before an office building in Washington and the driver dismounted, removed the cover from a manhole, ran out his chute, and proceeded to empty the load. An old negro strolled over and stood watching him. Suddenly the black man glanced down and immediately burst into a fit of uncontrollable laughter, which continued for several minutes. The cart driver looked at him in amusement. "Say, Uncle," he asked, "do you always laugh when you see coal going into a cellar?" The negro sputtered around for a few moments and then holding his hands to his aching sides managed to say, "No, sah, but I jest busts when I sees it goin' down a sewer."

The advertiser who displays lack of judgment in selecting the newspapers which carry his copy often confuses the sewer and the cellar.

All the money that is put into newspapers isn't taken out again by any means. The fact that all papers possess a certain physical likeness doesn't by any means signify a similarity in character, and it's character in a newspaper that brings returns. The editor who conducts a journalistic sewer finds a different class of readers than the publisher who respects himself enough to respect his readers.

What goes into a newspaper largely determines the class of homes into which the newspaper goes. An irresponsible, scandal-mongering, muck-raking sheet is logically not supported by the buying classes of people. It may be perused by thousands of readers, but such readers are seldom purchasers of advertised goods.

It's the clean-cut, steady, normal-minded citizens who form the bone and sinew and muscle of the community. It's the sane, self-respecting, dependable newspaper that enters their homes and it's the home sale that indicates the strength of an advertising medium.

No clean-minded father of a family wishes to have his wife and children brought in contact with the most maudlin and banal phases of life. He defends them from the sensational editor and the unpleasant advertiser. He subscribes to a newspaper which he does not fear to leave about the house.

Therefore, the respectable newspaper can always be counted upon to produce more sales than one which may even own a larger circulation but whose distribution is in ten editions among unprofitable citizens.

You can no more expect to sell goods to people who haven't money than you can hope to pluck oysters from bushes.

It isn't the number of readers reached but the number of readers whose purses can be reached that constitutes the value of circulation. It's one thing to arouse their attention, but it's a far different thing to get their money. The mind may be willing, but the pocketbook is weak.

If you had the choice of a thousand acres of desert land or a hundred acres of oasis, you'd select the fertile spot, realizing that the larger tract had less value because it would be less productive.

Just so the advertiser who really understands how he is spending his money does not measure by bulk alone. He counts productivity first. He takes care that he is not putting his money into a sewer.

JUST TIME.

The Wonderful Part It Plays in the Earth's History.

Truly it is hard for us to realize what a part time has played in the earth's history—just time, duration—so slowly, oh, so slowly, have the great changes been brought about! The turning of mud and silt into rock in the bottom of the old seas seems to have been merely a question of time. Mud does not become rock in man's time nor vegetable matter become coal. These processes are too slow for us. The flexing and folding of the rocky strata, miles deep, under an even pressure is only a question of time. Allow time enough and force enough and a layer of granite may be bent like a bow. The crystals of the rock seem to adjust themselves to the strain and to take up new positions, just as they do much more rapidly in a cake of ice under pressure. Probably no human agency could flex a stratum of rock, because there is not time enough even if there were power enough. "A low temperature acting gradually," says my geology, "during an indefinite age would produce results that could not be otherwise brought about even through greater heat." "Give us time," say the great mechanical forces, "and we will show you the immobile rocks and your rigid mountain chains as flexible as a piece of leather." "Give us time," say the dews and the rains and the snowflakes, "and we will make you a garden out of those same stubborn rocks and frowning ledges." "Give us time," says Life, starting with its protozoans in the old Cambrian seas, "and I will not stop till I have peopled the earth with myriad forms and crowned them all with man."—John Burroughs in Atlantic.

Books.

God be thanked for books! They are the voices of the distant and the dead and make us heirs of the spiritual life of past ages. Books are true levers. They give to all who will faithfully use them the society, the spiritual presence, of the best and greatest of our race. No matter how poor I am, no matter though the prosperous of my own time will not enter my obscure dwelling, if the sacred writers will enter and take up their abode under my roof—if Milton will cross my threshold to sing to me of paradise, and Shakespeare to open to me the world of imagination and the workings of the human heart, and Franklin to enrich me with his practical wisdom—I shall not pine for want of intellectual companionship, and I may become a cultivated man, though excluded from what is called the best society in the place where I live.—William Ellery Channing.

Result of Poor Writing.

The Duke of Wellington, through misreading a badly written letter, made a ludicrous blunder. This letter was written by C. J. London, a botanical author, who wrote to the duke requesting the privilege of seeing his beautiful beeches. The duke misread the signature for that of C. J. Bloomfield, bishop of London, and wrote in reply: "My lord, I shall always be glad to see you at Strattonfield, and my servant shall show you as many pairs of my breeches as you may choose to inspect. But what you want to see them for is quite beyond me."—Exchange.

An Easy One.

"You imagine you know a lot about Biblical things," said the teacher. "Suppose you tell me who Cain's wife was." "That's easy," rejoined the old deacon. "She was Adam's daughter-in-law."—Detroit Free Press.

System.

"I'm afraid I can't write that article on 'System.'" "Why not?" "I can't find my notes."—Louisville Courier-Journal.

Gainesville, Florida.

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.
